## SUMMARY

This course enables participants to become certified risk management professionals (Foundations level). The training and exam are based on the ISO 31000 risk management standard which can be used by organizations of any size, any industry, and any sector.

In this intensive three-day course, participants develop competence in the foundations of the ISO 31000 risk management standard. Based on in-depth teaching, practical exercises and quiz questions that test their aptitude, participants acquire the necessary knowledge and skills to pass the stringent exam. They do so by becoming familiar with the vocabulary, principles, framework and the risk management process proposed in the ISO 31000 standard.

During the course, we will present the ISO 31000 Risk Management Principles and Guidelines and its two companions, the ISO Guide 73:2009, and the IEC/ISO 31010:2009 Risk Assessment Techniques.

## LEARNING OBJECTIVES

- To understand the vocabulary, principles, framework and risk management process in accordance with ISO 31000.
- To understand the benefits of ISO 31000 as an internationally-recognized standard adopted by more than 40 countries.
